Dear Ms. McCray,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. Your email will become a part of ND-2015-20-E - Duke Energy Carolinas: Foothills Transmission and Substation Project- 45-Mile Transmission Line Between Asheville, NC, Power Plant and New Substation Near Campobello, SC, and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Coordinator

Subject: Duke Energy Transmission Plan Docket Number ND 2015-20-E

Dear Ms Boyd,

I am writing you with my concerns about the Duke Energy plan. The Campobello area and Foothills are a very rural area in NC and SC, as I'm sure you know. There are no malls, miles of asphalt, big business parks, big box stores. Just mountain views, forests and pasture land. To let this plan happen will devastate this area's economy. The rural flavor is why people come here to live, work and spend their vacations. Not to mention the property values will plummet and some won't be able to sell their homes at all. The health and welfare of all who live near these lines will also be at risk. In this day and time Duke should be able to bury these lines and not corrupt this beautiful area. Once it's gone, its gone.

I hope you can see how devastating the transmission lines will be to this part of SC/NC.

Respectfully yours,

Betsy M McCray
